# EpicCare® Link

Simplified ordering & patient management at your fingertips

**NEW and Improved Rescreen Ordering.** Rescreening just became that much easier for your eligible rescreen patients through EpicCare® Link. Below are the many benefits and the steps on how to get started.

## Rescreen report

- View your patients who have screened 3 years ago
- View relevant patient data in a single report
- Multi-select patients due for rescreen and order for more than one patient at a time directly from the report should you determine Cologuard is medically necessary for them
- Easily add and/or update patient insurance coverage, phone number and address directly from the Rescreen Report by clicking the folder icon.

## How to get started ordering rescreens

★ **COMING SOON: Steps on how to get started ordering rescreens.**

1. Pull the Rescreen Report
2. Facilitate determination of patient eligibility for rescreening
3. Easily add and/or update patient insurance coverage, phone number and address directly from the Rescreen Report by clicking the folder icon.
4. Order Cologuard from the report and it goes right to Exact Sciences Laboratories
5. Let the patient know it is on its way and the importance of completing rescreening.
